MAKERS of

Hand Wrought Brasses

IN THE

Early American Manner

Catalog 1929. 2nd Edition

FOREWORD

THE most appropriate foreword for this catalog, is a word of thanks to those in the Antique Field who have, during the past years, used and endorsed our brasses and who, by their patronage, have enabled us to develop our business from a very small beginning to one of the largest of its kind in existence. Our brasses are now so well known and their reputation for quality and character so thoroughly established, that it seems unnecessary to describe the painstaking care with which they are made. No make-shifts or cheapenings have ever or will be tolerated and the old-time methods of the original makers are faithfully followed. In no other way can the high quality of Ball Brasses be maintained and to this end the earnest effort of ourselves and of every Artisan in our employ is pledged.

NEARLY 4000 AMERICAN DEALERS

and collectors now use BALL BRASSES and they are found in leading Art Galleries, Historical Museums and National Shrines wherever replacements of missing originals have been required. The following letters from representative dealers are published by permission and the kindness of the writers in allowing this privilege is hereby acknowledged.

WALLACE NUTTING FRAMINGHAM, MASS.

December 20, 1928

William Ball & Sons:

The furniture brasses we get of you are very well done, as good as the old ones.

WALLACE NUTTING

SHABBY SHOPPE Antiques Houston, Texas

WILLIAM BALL AND SONS:

We want to thank you for the faithful reproductions of Antique Brasses with which you are able to furnish us. It means a great deal to us, to be able to replace lost brasses with the high quality and design which you make.

MRS. RUBY WILLIAMSON,
HATTIE A. MATHEE.

FRANCIS D. BRINTON ANTIQUES West Chester, Pa.

We feel that in using "Ball Brasses," where the originals are missing, we are giving our customers the best that can be procured. In fact where there are part original brasses on a piece of furniture, and part yours, it is difficult to distinguish one from the other.

Your high grade of workmanship, together with prompt service, is a great help in the proper restoration of antique furniture.

Wishing you continued success, I am

FRANCIS D. BRINTON.

FRANCES WOLFE CAREY ANTIQUES Haddonfield, New Jersey

I wish to express my appreciation for your promptness and skill in completing for me my set of old open-work brasses. They match so perfectly that the reproductions can scarcely be distinguished from the originals.

Your brasses have always been very satisfactory to me, for I feel that they are consistent with the spirit of the old ones.

FRANCES WOLFE CAREY.

SKIPPACK PIKE, ANTIQUES Ambler, Pa.

We consider Ball Brasses to be the best on the market. Certainly we have never seen more accurate matching than your copies of old brasses.

P. M. ALLEN

THE HAYLOFT Bethlehem Pike WHITEMARSH, PA.

It gives us pleasure to advise that, after many trials, we have found that your work on brasses of the period is more adaptable to higher grade pieces than any other we have found.

FRANK M. CAMP.

ANTIQUES

CURIOSITY SHOP

Our introduction to the Ball Brasses was two back plates to supply the missing on a Gov. Winthrop desk. They were so well done that we said he can never do it again. But he has.

W. H. WILKINSON

ANTIQUES—OBJECTS OF ART JOHN G. MATTHEWS Baltimore, Maryland

In equipping an old chest or desk with reproduction brasses we use the product of William Ball and Sons with the utmost confidence. We know their patterns are faithful reproductions of the old and for that reason we know our customers will be satisfied with them.

When we are in need of special brass parts or special reproductions to fill out original sets of brasses, we count ourselves fortunate to have the ingenuity of the Ball craftsmen at our service.

JOHN G. MATTHEW.

W. S. AHERN ANTIQUES 113 W. Main St., Richmond, Va.

I am indeed most glad to say my little word in praise of your brasses especially since the subject is so richly deserving.

When fidelity to detail, coupled with excellence of workmanship is required I know of no brasses here or abroad that quite equal Ball Brasses.

W. S. AHERN

I think and consider Ball Brasses the finest made brasses in this or any other country today and can not praise them too highly.

FRED A. GODDARD.

MRS. BERYL DEMOTT Millington, New Jersey

Where we have brasses to replace on a really fine piece of old furniture, it is a help to know that we can get the right kind from William Ball & Sons, and we are always glad to recommend them.

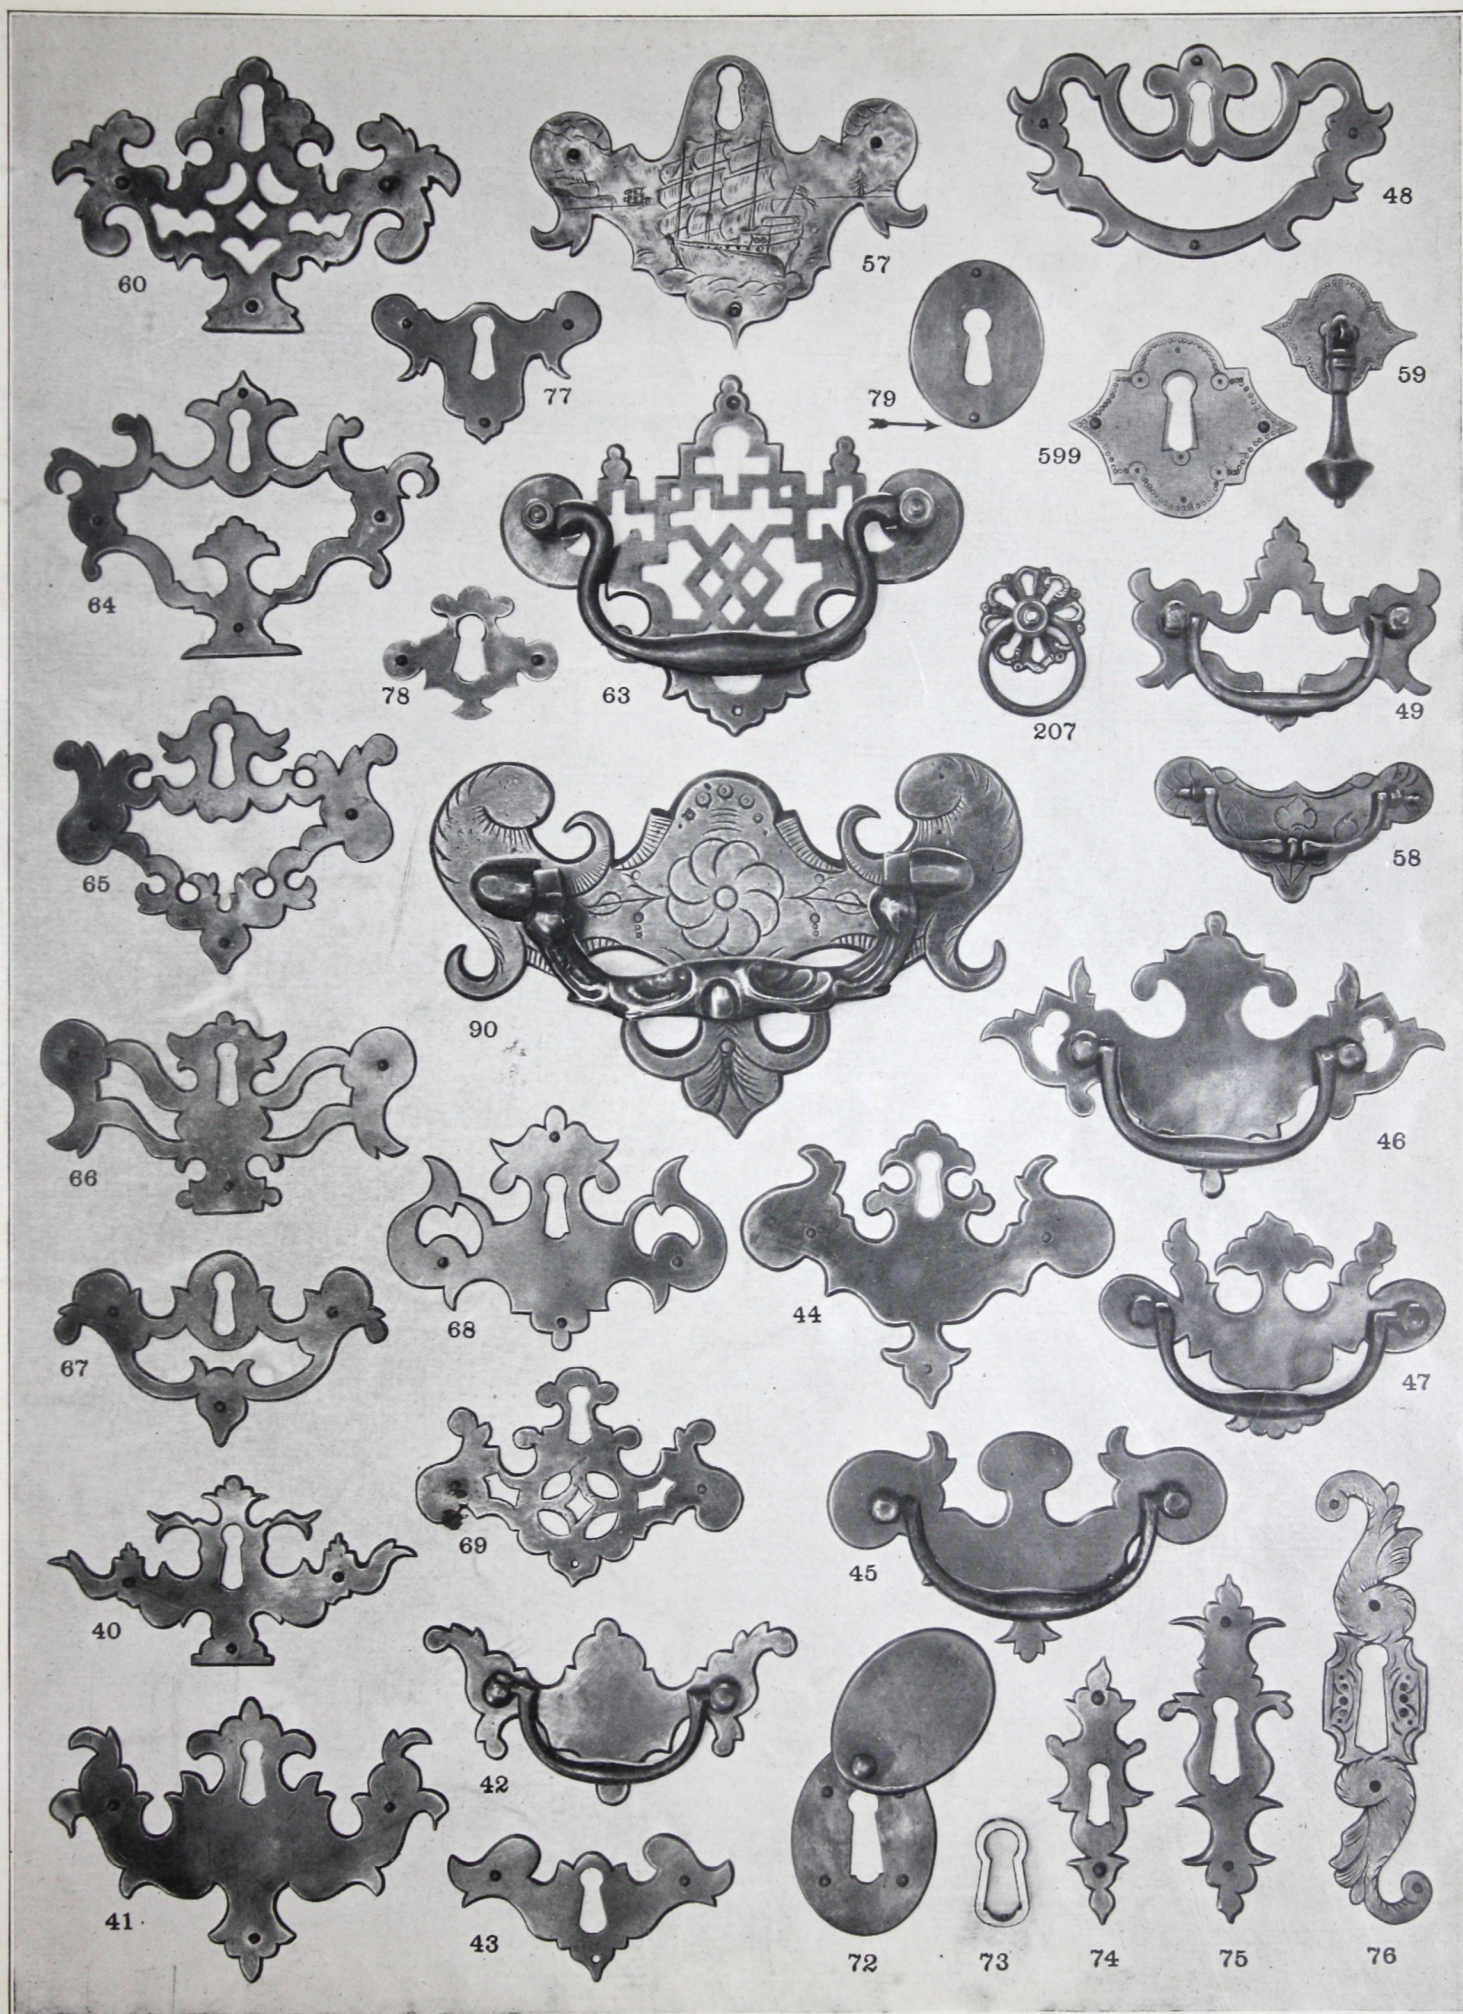

BERYL DE MOTT

WILLIAM J. FRENCH Antiques 539 Lancaster Ave., Bryn Mawr, Pa.

I especially recommend Ball Brasses to those who desire to obtain hand made goods at a moderate price, which are not only correct in design, but especially in color which is so important and usually appreciated by particular people.

DIE STRUCK BALL BRASSES

¶ 1. The brasses in this catalogue were selected from among the best of the many thousands of fine originals, of which we have made copies. Every one shown is photographed from a copy made by us of an authenticated original.

¶ 2. **Carried in Stock**—All brasses shown in this catalogue are carried in stock, in all sizes listed, and except in rare instances can be shipped immediately.

¶ 3. If none of these illustrations show exactly what you need, we will be pleased to quote prices upon receipt of rough sketch showing the size and nature of brass required. This should be accompanied by a rubbing if possible, of the marks on the wood if any, showing where the holes are for the posts or pins. In sending measurements, if more than one hole in the wood, always give distance between center to center of holes, also thickness of the wood.

¶ 4. We will select or advise the proper brasses to use, if you wish, upon receipt of rough drawing, or better yet a photograph of the piece, for which they are needed. Our long experience and knowledge of antiques in general, enable us to offer authoritative advice.

¶ 2. All prices are for EACH ITEM listed unless otherwise stated.

QUALITY—CHARACTER—SERVICE

¶ 1. **Ball brasses are hand-made** wherever hand-work was used on originals and have all the earmarks of the old-time workmanship. They look old and show quality and character. Post and nuts have the old-time hand-cut threads. Plates are the same thickness as the originals. Pierced brasses are hand-pierced. Chased and engraved brasses are chased, engraved or carved by hand. Each mark, dot, line, being cut in, one at a time, by hand and not machine stamped or cast: As no photograph or illustration can possibly show their beauty and naturally aged appearance, we are always glad to send samples for inspection, and comparison. These should be promptly returned.

¶ 2. **Color**—One of the most important and attractive features of Ball Brasses is their natural antique color. It is identical to that which occurs through ageing on the original brasses. Our coloring process has been perfected by us after years of research and experiment. Is known only to and used only by ourselves and is the only reproduction color having the soft, mellow, dark olive green tones found on the best originals. As the color is in the brass itself, it is absolutely permanent, improves with age and requires no lacquer. We do not use sulphide dips which give the purpleish brown so-called antique color, nor do we use poisons, in our coloring. Bright finish is furnished at same price as Antique if desired.

¶ 3. **Special copies**—We are prepared and competent to make copies of anything in brass, duplicating the craftsmanship of any age or period. We make, match, copy, repair, and restore anything ever used on antique furniture. We also repair and restore any kind of antique brasses whatsoever. Copies of hand-wrought brasses similar to those shown on pages 3-4-5 cost about the same, as the list price of our nearest stock pattern and size. Usual time required, three days. Copies of embossed brasses, hand-spun knobs, etc., as on pages 9-10-11 are more expensive and require one to three weeks to make. All copies and restorations are finished in the same antique color as the originals. Always send the best conditioned original possible, for copying. Originals are most carefully cared for and returned.

¶ 4. **Special Sizes**.—Intermediate sizes of Brass on Pages 3, 4 and 5 furnished from stock at 25% extra over next size larger. Larger sizes to order. All other brasses in stock only in sizes given.

¶ 5. **All quotations on special copies, repairs, etc., are net**, not subject to dealers' discount.

¶ 6. **Special copies and special work, are not returnable**, except for cause. Our reputation for fair dealing and competent workmanship assures the quality of work. Should we make a mistake we are, of course, most willing to make corrections or refund.

TERMS

¶ 1 **Terms**—We wish to extend every possible courtesy to our customers, but it is impractical for us to extend credit and carry book accounts on the innumerable small amounts which make up a considerable part of our business. We pay postage and insurance when orders are accompanied by check or money order. Otherwise small orders except to those with established credit, are sent by Parcel Post C. O. D. Postage and insurance added.

¶ 2. **Credit to Dealers**—We are always glad to open accounts with dealers who intend using our brasses regularly, upon receipt of satisfactory references.

¶ 3. **Small or Large Orders**—One piece or a thousand. No order is too small to receive our best attention, or too large to be promptly and competently filled.

¶ 4. **Satisfaction Assured**—Order any brasses in this catalogue. Put them on your furniture. Compare them with any others obtainable in price and quality. Compare them with your best originals. Then, if they are not as good or better than you expected, or if you are in any way disappointed, or dissatisfied with them, return them to us, insured Parcel Post, within 10 days, and we will cheerfully and at once refund the amount paid for them.

¶ 5. **Dealers' Discount**—The price on everything shown in this Catalog is subject to a liberal dealers' discount which will be quoted upon request to anyone connected with the trade.
